

**VI STD**

**DEAR PARENTS,**

**The children have worked hard since the beginning of the new session and deserve a break. To this end, we at The Temple had compiled some activities that your child will find both enjoyable and rewarding. Now the subject assigned activities have been designed to reinforce essential skills learnt at school and to help students establish in the subjects. Home Work also provides the parents an opportunity to participate in their child's education. However, we would like to add a word of caution here- While parental involvement in H.W is important, they need to ensure that their level of involvement is appropriate. When children do require and ask for help, parents can be more effective by helping them find answers for themselves rather than by actually providing the answers. We suggest that you help your children by discussing/ explaining the task and in helping them stay focused while completing the assignment.**

## HOLIDAY HOMEWORK

CLASS - VI
